The official event for the

SURINAME ENERGY, OIL AND GAS SECTOR

Suriname - Open for Business

1-3 June 2021, VIRTUAL EDITION

www.suriname-energy.com
The official Suriname Energy, Oil and Gas Summit 2021 will highlight Suriname’s investment opportunities driven by the recent hydrocarbon resource discoveries and developments in the country, raising its prospects as a potential global petroleum industry leader.

With the U.S. Geological Survey putting the resource potential of the Guyana-Suriname basin at more than 13 billion barrels of oil there’s no question why majors and independents are drawn to the area.

Following five successful offshore discoveries Block 58 in, Suriname is estimated to contain more than 1.4 billion barrels of oil equivalent resources (Rystad Energy). After four Apache discoveries in Block 58 held in a JV with Total, Suriname closed this first loop with a fifth Petronas discovery in Block 52 held in a JV with ExxonMobil. The country also has proven onshore reserves.

A great opportunity for Suriname and its NOC Staatsolie to leverage the recently discovered natural resource wealth to benefit the local population and generate revenues arising from the country’s hydrocarbon discoveries.
With a reach of over 500,000 senior energy executives from across the globe, comprised of our existing network of world class speakers, event attendees, sponsors and participants of our international events, the energy advance network draws valuable expertise and connections from across the entire energy value chain.

**IN NUMBERS, STATS AND DEMOGRAPHICS**

**LEADING COUNTRY PARTICIPATION**

OPPORTUNITIES IN SURINAME

2020

A year to remember for Suriname with their first offshore discovery of hydrocarbons in offshore Block 58, held in a JV between Apache and Total. A game-changing opportunity for the country’s economic recovery and development.

Suriname finished the year on a positive note with a fourth offshore discovery by Petronas in a JV with ExxonMobil.

With an estimated resource potential of 13.6 billion barrels (P50), the United States Geological Survey (USGS 2012) ranks the Guiana Basin 2nd in the world for prospectivity among the world’s unexplored basins and 12th for oil among all the world’s basins - explored and unexplored.

2021

In January 2021 the Keskesi East-1 discovery was announced in Block 58. Keep an eye out for the outcome of Staatsolie's Suriname Shallow Offshore Bid Round with bids due to close on the 30th April 2020.

Staatsolie will play a fundamental role in the development of Suriname’s hydrocarbon potential. The NOC intends to develop renewable and sustainable energy resources, as well as contributing to the local economic development through local content strategies.

Suriname’s position in the Guyana-Suriname Basin enhances its potential for strategic partnerships and both nations’ presidents are working on joint infrastructure solutions and local content issues to both countries.

Why attend
SEOGS 2021?

The official Suriname Energy, Oil and Gas Summit 2021 will bring together industry leaders, regional government and ministries, NOC’s, NGC’s, regulators, and policy makers to the 3-day virtual summit dedicated to Suriname’s oil and gas sector.

Staatsolie and SEOGS 2021 will enable you and your industry peers to take part in an interactive networking experience, including access to valuable information and market intelligence on a virtual platform dedicated to the industry.

SEOGS 2021
Programme

Key themes:

DAY 1 – Suriname Open for Business
DAY 2 – The Sustainable Development of Energy for the Benefit of All
DAY 3 – Diversification, Industrialisation & Job Creation
LOCAL CONTENT – Masterclasses (open to all)

Sessions and Topics include:

- Presidential Opening Address
- Ministerial Keynote Addresses
- Establishing Suriname as a Leader in Oil and Gas
- Operators and Opportunities in the Open Acreage
- A New Paradigm for Regional Energy Co-operation
- Managing Public Expectations through Efficient Communication
- Positioning Suriname as a High-Quality Asset for IOC’s Energy Transition
- Technology and Innovation in Oil and Gas
- The Critical Role of Gas
- Financing of Infrastructures
- Staying Green
- Harnessing Oil and Gas Revenues to Fuel a Green Development Strategy
- Local Content Policy & Regulation
- Infrastructure to Support the Oil & Gas Sector
- Promoting Suriname’s Industrialisation
- Establishing Gender Diversity Opportunities
- Local Content Masterclasses

Join the Official Suriname Energy, Oil and Gas Summit 2021

Hosted by

40+ SPEAKERS
400+ VIRTUAL ATTENDEES
150+ COMPANIES

1-3 June 2021 | Virtual Edition
Virtual conferences have already proven to be extremely effective in opening events up and dramatically increasing delegate participation by three-fold thanks to the easy access, much lower registration costs and no travel expenses.

You can enjoy the whole SEOGS experience from the comfort of your own working environment. We record all sessions so that registered delegates can access all presentations and panel debates at a time most convenient for you.

With the dedicated SEOGS online platform there is easy interaction between speakers and their audience. The virtual conference platform facilitates the flow of questions and for participants to cast their vote on hot topics.

All SEOGS participants can again take advantage of the exclusive Business Matching service providing the opportunity to pre-arrange meetings with other attendees through an easy-to-use technology platform, managed with personalised service.

The online tool gives you direct access to all attendees in the run up, during and following the summit, allowing you to schedule meetings ahead of the event and ensure you speak face-to-face with the right people from the 400 plus VIP delegates in attendance.
PARTNERING WITH STAATSOLIE FOR SURINAME OIL AND GAS SECTOR DEVELOPMENT

SEOGS 2021 will be hosted by Staatsolie to discuss opportunities throughout Suriname’s entire oil and gas value chain. The virtual summit will harness Suriname’s potential and enable companies to foster long-term partnerships through our online platform, pre, during and post event.

Our virtual conference solution combines knowledge discovery and 1-1 matchmaking that engages your customers no matter the setting, keeping them constantly curious through the AI-driven recommendations.

The SEOGS virtual platform allows for extensive branding from the welcome page, through to the sessions themselves. Position your brand next to your speaker to ensure your company is fully engaged, positioned, and profiled throughout.

SEOGS Business Matching virtual platform enables you to network with fellow participants one week up to the event ensuring you have a full meeting schedule in place. As an added value-position, the platform will also allow for meeting requests during the event and up to two weeks post event, ensuring sufficient time to connect, collaborate and create.

Our virtual exhibition platform enables your team to welcome and engage with delegates looking to find out more about your company’s solution.

Showcase your various products and solutions throughout the platform, with the option to post videos, brochures and face to face demonstrations ensuring your customers come to you and effectively engineer return on investment effortlessly, from the comfort of your home or workspace.

Easily share catalogues, videos, images through the platform, or simply utilize the online video service to network as soon as someone enters your virtual exhibition stand.
